

Akron Zoo Scavenger Hunt

1. These bears get their name from the white-tipped hairs on their shoulders and backs.

2. The naked mole rat can't feel what?

3. What color does a male snowy owl turn as he gets older?

4. This "eel" is actually not an eel, and is more closely related to carp or catfish.

5. What do jaguars love that most cats hate?

6. For the first few years of their life, which animal spends most of their time in the trees to avoid being eaten by the adults?

7. Do push-ups at the push-up exercise station to stay in shape for the rest of your hunt.

8. These animals can float on their backs, dive and even tread water like humans. Why don't you "slide through" their exhibit?

9. This animal is often considered the world's most endangered canine.

10. This animal likes to hum to communicate its location and state of well being.

11. What is the only known predator of the Galapagos tortoise?

12. Where does the green tree monitor have the largest scales on its body?

13. Most of us communicate using English, but animals don't. This animal communicates using vocalizations and calls, smells, grooming, and body language.
